

## VIRTUAL EVENT

# WE Lead Summit

## April 22nd, 2021

It's time to come together as women in educational leadership to support one another as we navigate the end of a unique year and plan ahead for another! The theme for the 2nd Annual WE Lead Summit is **Ubuntu - I am because You are.**

Please join us for this virtual event where we will focus on *networking, work-life balance, the importance of professional mentoring, and much more!* You will meet leaders from around the region in a unique opportunity designed to support, encourage and develop women in their leadership journey. Hear from women from across the country about their paths, map your own journey to success, and leave with a stronger network of women who can support you along the way.

### Among our areas of discussion and reflection:

- Exploring our personal vision of success
- Finding balance
- Investigating the unique needs of women leaders
- Identifying strengths and opportunities for growth
- Exploring professional enrichment opportunities such as branding and mentoring
- And much MORE!

Our speakers include President of Obelisk Consulting Services, Doreen Marvin, AASA Superintendent of the Year, Noreen Bush, and many others! We will have a rich variety of break out sessions for you to choose from. All attendees will be mailed a copy of Madeleine Albright's book, *Hell and Other Destinations: A 21st Century Memoir*, and some other professional tools for you to use.

Founders Dr. Melissa Sadorf and County School Superintendent Jill Broussard are committed to developing women leaders in Arizona. The **WE Lead Summit** is their way of supporting the growth of **all women** in leadership roles or those that aspire to leadership. **WE Lead** is an opportunity to move the needle for women in educational leadership through professional development, career development, goal setting and support. They both believe that all organizations are strengthened when leaders value both diversity and equity. The **WE Lead Summit** is an event designed by women for women and is an avenue for women to find their authentic voice in the realm of leadership and ultimately realize their unique version of success. They welcome your involvement and your participation in these efforts!

### What some of our attendees said last year:

***"What an inspiring group of leaders! I loved hearing their individual stories and how they continue to work to lift other women up into leadership."***

***"Solid information presented in a genuine way."***

Registration is being supported by AZ ASCD. If you plan to use a purchase order, please ensure that your business office has AZ ASCD registered as a vendor. We are happy to provide additional assistance.
